New York, Sept. 24.—Bear operators had the upper hand in the market during the morning basing their attacks largely on reports of unfavorable conditions in the steel and copper industry. The break in copper metal abroad was followed by rumors of price reductions in the domestic market, which, however, met with denial. The possible effect of the new tariff schedule on the steel trade was made the basis of bearish predictions and new business was said to be falling off, despite price concessions.

Bear selling became more aggressive when it became evident that the decline was not bringing out supporting orders. Union Pacific was depressed 2 points and numerous other stocks from 1 to 2.

Bonds were irregular.

The market reversed its course when the short covering became extensive enough to absorb the speculative selling. Union Pacific rallied a point but the rise elsewhere did not run beyond a small fraction.

The market closed weak. New Haven became strong and active, rising 2 1/2 to 8 1/2-4. No news was forthcoming to explain the sudden prominence of the stock, which had been neglected as the close of the bond bearing drew nigh. Other shares ruled in the main heavy, titanic rallies being succeeded by occasional spurts of selling. United States 2s registered solid at 98 against 97, the previous rule last week, and 95 3/4, the year's lowest.

Closing prices on the most important stocks were:

Anheuser-Busch, 75 3/4.

Sugar, 111 bid.

Atchison, 95.

Northern Pacific, 113.

Reading, 12 1/2-5.

Southern Pacific, 92 3/8.

Union Pacific, 158 3/8.

Steel, 62 5/8.

Steel preferred, 169.

Chicago Board of Trade.

Chicago, Sept. 24.—Wheat traders who believed that after a five-day decline the market today would make a decided rally met with disappointment. There was a slight show of strength early but the effect soon wore off and prices took a sharp down turn. The heavy Canadian movement and Liverpool reports of free Russian offers had a discouraging influence on the bulls. The opening was a shade lower to 1 1/8 advance and was followed by a little gain all around. Then the market underwent a rapid descent.

Although Illinois banking returns and predictions regarding receipts here favored the bulls, corn gave way with wheat. Prices started unchanged to 1/2 cent, made a fraction at gain and then sagged to a material extent below last night's level.

Oats trading formed merely an echo of the corn market, but commodity business was active and well distributed.

Provisions flattened out with corn and hogs. First sales were 5 1/2-5 1/2 down and the saw was afterward extended.

Wheat—Sept., 83 5/8c; Dec., 87 5/8c; May, 92 1-4 9/16c; June, 92 5/8c.
